SALES - CREATIVE - TECHNICAL

## About me

I have worked in the distribution industry for 7+ years, gaining extensive experience in sales & customer service as well as graphic design, marketing and web development.

Throughout the years I've also undertaken more complex duties and projects; these range from completely redesigning the company's outdated website to a modern framework and implementing a new eCommerce platform, to doing day-to-day graphic design work, print design work (brochures, posters, roller banners, business cards) and helping out with digital marketing.

I love raising to a challenge, getting to learn new things and improving myself!
